**Capability**

- Acts as adjustable-height transfer trolleys for moving laden body trays between storage units and autopsy tables, or within mortuaries and hospitals.
- Designed to extend from a minimum height of 13.46” (34.2 cm) and provide access to the fourth tier of storage racks at 73.23” (186 cm).

**Operation**

- Shandon Cadaver Lift control system incorporates a scissor-action, hydraulic power lifting system, integral battery charger, and optional weighing module.
- Battery-operated hydraulic lifting system is activated by two control switches to raise and lower body trays.
- Lift is supplied with an integral battery charger which can be connected to a standard mains socket, eliminating the need for charging stations.
- 12V weighing system is available as an optional item.
- Display and controls provide a simple, easy-to-use system with large text display.

**Shandon Cadaver Lift**
The Shandon Cadaver Lifts are designed to assist the loading and unloading of body trays from mortuary refrigerators and freezers.

**Cadaver Lift Description**

- Cadaver Lift, 4-tier, **with** weighing capabilities, with battery-powered, dual voltage charger: B1000624
- Cadaver Lift, 4-tier, **without** weighing capabilities, with battery-powered, dual voltage charger: B1000625

**Body Trays (sold separately)**

- Stainless Steel, Roller-type (shown): 82618
  - 77.38” x 23.13” x 2.94” (196.5 x 58.7 x 7.5 cm)
- Stainless Steel, Roller-type with drainage hole and stopper: 82619
  - 77.38” x 23.13” x 2.94” (196.5 x 58.7 x 7.5 cm)

**Construction**

- Lift is manufactured using heavy-duty stainless steel tubular sections.
- Sprung ball transfer units are used to provide effortless body tray transfer.
- Lifts are designed to allow removal of body trays from all four sides.

**Caution:** Lifts are not recommended for use with ramps into refrigerators, freezers, or other walk-in rooms.
Shandon Autopsy Accessories

### Shandon Disaster Pouch
- Holds up to 450 lb (204.1 kg).
- Up to 20 mil thickness.
- Available with zipper-around-edge or zipper-in-center styles.
- Pouches with zipper-in-center configuration open in either direction for selective opening and closing.
- Pouches with zipper-around-edge configuration allow for easy handling of cadaver.
- Especially convenient for situations requiring special lifting.
- Heavy-gauge material with six polypropylene handles is extremely durable and tear-resistant.
- Nylon vinyl coating makes the bag acid-proof, leak-resistant, formaldehyde-proof.

### Shandon Plastic Cadaver Bag
- Clear plastic bag is well suited for protecting cadavers from prolonged exposure to the atmosphere.
- Especially convenient for teaching facilities where it is necessary to handle cadavers which are stored on wall hooks.
- Made from heavy 5 mil plastic sheeting with electronically welded seams.
- Economical; packaged 12 bags per carton.

### Shandon 10000 Autopsy Saw
- Well-balanced, lightweight (3.7 lb; 1.7 kg) saw is designed to promote user safety.
- The saw’s powerful motor oscillates at high speed to cut bone, not tissue.
- Easy to handle and cuts quickly to minimize operator fatigue.
- Power switch on the end of the saw slides rather than toggles to decrease the chance of accidental activation.
- 10 foot cord.

### Shandon Heavy-Duty Vinyl Bag
- Full-length zipper in center.
- Sturdy, white, opaque material is 7 mil thick.
- Available in large (adult), medium (child), and small (infant or limb) sizes.
- Protects cadaver from exposure.
- Small size includes two toe tags and biohazard tag.

### Shandon Electronic Scale
- Pan has a 1,050 ml capacity
- Readability 1.0 g.
- Auto shut-off feature.
- The battery operated digital model has a bright, easy-to-read LCD that displays up to 2,000 g.

### Shandon Wrap-around Cadaver Cover
- Use to wrap around cadaver.
- Moisture-proof.
- Sturdy, white, opaque vinyl with elastic perimeter fits standard hospital beds and gurneys.

### Shandon Plastic Cadaver Bags
- Clear plastic bag is well suited for protecting cadavers from prolonged exposure to the atmosphere.
- Especially convenient for teaching facilities where it is necessary to handle cadavers which are stored on wall hooks.
- Made from heavy 5 mil plastic sheeting with electronically welded seams.
- Economical; packaged 12 bags per carton.

### Ad

Leading the world in high-tech instruments, Thermo Electron Corporation helps life science, laboratory and industrial customers advance scientific knowledge, enable drug discovery, improve manufacturing processes, and protect people and the environment with instruments, scientific equipment, and sample-in/knowledge-out solutions.

Based in Waltham, Massachusetts, Thermo Electron Corporation has revenues of more than $2 billion, and employs approximately 11,000 people in 30 counties worldwide.
